

The Oxford Hills School Based Health Center
at Oxford Hills Middle School and Oxford Hills Comprehensive High School

July 14, 2009

Dear Primary Care Provider:

Your patient, _____, is enrolled in the School-Based Health Center (SBHC). Our records indicate a history of asthma. A current asthma plan will assist the SBHC and the school nurses in providing continuing care for your asthma patients in school. We need your help with this.

On the attached sheet please indicate the patient's asthma status by checking the appropriate box. **If the patient has an asthma plan, please include a copy.** Please fax the sheet on asthma status and the asthma plan to the SBHC at 739-2216. Thank you for helping us provide quality care for this patient.

Sincerely,

Debra J. Nichols, RN, CPNP
