## Disproportionality in Child Welfare

The Use of Data and the Role of Leadership<br>An Iowa Example<br>Presented By Wendy Rickman

Administrator: Division of Adult Children And Family Services

## Disproportionality in Iowa

- Had to Recognize It Exists
- Small Incremental Steps/Use of PDSA Model
- Break Through Series Collaborative (times 2)
- Data Reporting Awareness

## Break Through Series Collaborative

- Decision Point Analysis
- 8 Counties selected in Iowa
- Example County

## Break Through Series Collaborative

Examination of the numbers reveals that children of African
American, White, and Unknown race, and non-Hispanic and Unknown ethnicity had the greatest frequency of cases. These numbers appear relatively stable since December 2009.

## Break Through Series Collaborative

Comparing across types of maltreatment one can see that the highest percentage (approximately 88\%) of confirmed and founded maltreatment is denial of critical care for the rows with substantial numbers There are not substantial differences by race or ethnicity on this measure.

## Break Through Series Collaborative

Placement Change

Because this measure compares across race and ethnicity, a comparison to the percentages each group comprises in the county population provides a disproportionality index. The disproportionality index shows that for African American the average percentage of placement changes is 2.39 times their proportion in the general population and for White the rate is .60 times their percentage of the population.

## Break Through Series Collaborative

Exits From Placement

Using the percentage as the numerator and proportion of the county population as the denominator, the disproportionality index shows that for African American the percentage of exits is 2.59 times the percentage in the general population and for White the rate is .61 times their percentage of the population.

## Race and Ethnicity Reporting

- Problem
- A high proportion of missing data in our abuse reporting system
- Solution: Raised awareness
- Staff Reminders during Bi Monthly Calls
- Monthly Reporting of information
- Trend Analysis

## Race and Ethnicity Reporting

| Race and ethnicity of children for whom an assessment was completed during the report month (Aug. 2010) |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Child Race |  |  |  |  |  |  |  |  | Child Ethnicity |  |  |  |  |
| Service Area | American Indian / Alaskan Native | Asian | African American | Hawaiian / Pacific Islander | White | Multiple Races | Unable to Determine | Blank / missing | Total Number of Children | Hispanic | Not Hispanic | Unable to Determine | Blank / missing | Total Number of Children |
| 1 Western | 2.5\% | 1.2\% | 1.7\% | 0.5\% | 57.2\% | 1.0\% | 4.2\% | 31.7\% | 593 | 5.6\% | 57.0\% | 5.9\% | 31.5\% | 593 |

| Statewide | 0.8\% | 0.5\% | 7.1\% | 0.2\% | 50.7\% | 1.5\% | 9.9\% | 29.3\% | 32817 | 4.2\% | 58.9\% | 7.7\% | 29.1\% | 32817 |

## Next Steps In Iowa

- Continue to support the projects started in the BSC
- Continue to weave the work into day to day operations
- Continue to surface the issue at every opportunity
- Continue the data clean-up
- Continue to look for inroads and opportunities

## Overarching Advice

- Leadership is a key
- Know your jurisdiction/ the work progresses at different rates
- Good data will draw the picture and thus begin to drive the discussion
- Don't stop, don't stop, don't stop...
