Seeking Nominations for the
Marcia Lovell Award for
Innovation in Early Care and Education

The Marcia Lovell Award was created by MRTQ to recognize an outstanding individual or organization that makes significant contributions to the development of the early care and education field in Maine, and who embodies the ideals for which Marcia advocated: better lives for children, high quality early education experiences, support for all children, including those most at risk and with disabilities, and the belief that the arts are an integral part of early education programs. Full nomination criteria and the nomination form can be found at: https://www.surveymonkey.com/s/marcialovellaward.

Marcia Lovell (1942-2005) was a friend and dedicated advocate for the importance of high-quality early childhood experiences. Marcia cared deeply about young children and their families and worked diligently to support healthy, responsive systems. She worked at the Maine Department of Health and Human Services Office of Child Care and Head Start, where she was a program specialist with more than 20 years of experience. Marcia was instrumental in the development of many early childhood programs and initiatives in the state of Maine.
Do You Know about the Growing Ideas Tipsheets and Resources?

The University of Maine Center for Community Inclusion and Disability Studies (CCIDS) offers a free and popular online resource, Growing Ideas Tipsheets and Resources for Guiding Early Childhood Practices [http://ccids.umaine.edu/resources/ec-growingideas/](http://ccids.umaine.edu/resources/ec-growingideas/).

These free materials, in the form of tipsheets, resource pages, and virtual toolkits, provide early childhood and school-age care professionals, parents, and guardians with current information on a variety of topics in the areas of inclusive early care and education, social-emotional development, and program planning and administration.

The entire Growing Ideas tipsheet series was recently updated under the leadership of Linda Labas, M.Ed., CCIDS’s Early Childhood Coordinator. “Our goal was to provide child care professionals with accurate information that would help them to make informed decisions that support the access and participation of children with disabilities in their settings,” notes Labas.

Three NEW Growing Ideas tipsheets of interest were recently added under the area of program planning and administration at [http://ccids.umaine.edu/resources/ec-growingideas/program-plan-admin/](http://ccids.umaine.edu/resources/ec-growingideas/program-plan-admin/): Admissions Policies and Practices that Build Inclusive Child Care Communities; Confidentiality: Respecting the Privacy of All Families; and Laws that Support Early Childhood Education for All. These were co-developed by CCIDS and Maine’s Protection and Advocacy agency, the Disability Rights Center of Maine, with funding from the Maine Department of Health and Human Services, Office of Child and Family Services.

For more information about Growing Ideas, please contact Linda Labas at linda.labas@umit.maine.edu.
